

Omar Abdel Moneim Amin Mahdi

Front-End Developer

Profile

Front-End Developer skilled in building responsive and dynamic web applications using React, JavaScript, and Tailwind CSS. Currently learning Next.js to develop scalable, SEO-friendly, and high-performance applications. Passionate about clean code, modern UI/UX, and continuous learning.

Education

at El Shorouk Academy, El Shorouk City

September 2022 - May 2026

El Shorouk Academy – Faculty of Computer & Information Systems

Bachelor of Information Systems Expected Graduation: 2026

Projects

E-commerce App • [↗](#)

An online store with product browsing, shopping cart, secure checkout, and user authentication.

Social App • [↗](#)

Linkpost is a social web app built with Vite & React that lets users create profiles, share links, and connect with others easily.

Weather App • [↗](#)

Weather App — A simple web application that provides real-time weather updates by city. Users can search for a location and instantly view temperature, conditions, and other weather details.

Bookmarker App • [↗](#)

Bookmarker — A simple web app for bookmarking your favorite websites. Users can add sites by name and URL, view their saved list, visit or delete bookmarks, with form validation ensuring valid entries.

Smart Login System App • [↗](#)

A secure web app that enables users to sign up, log in, and manage their accounts. Features include form validation, authentication, and user-friendly interface to enhance login experience.

Experience

Front-End Developer (1 Year Experience) Internship at Route Academy: trained on front-end technologies and best practices. Built responsive and user-friendly web pages using HTML5, CSS3, Bootstrap 5, Tailwind CSS, and JavaScript (ES6+). Developed interactive components with React.js and Next.js (deployed projects on Vercel). Practiced API integration, state management (Cart/Wishlist), and testing APIs using Postman. Learned teamwork basics, version control with Git/GitHub, and project collaboration skills. Completed practical projects (personal portfolio, mini e-commerce demo, fitness app prototype).
