PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on experience in building scalable web applications using Next.js, React.js, Node.js, Express, and MongoDB. Proficient in designing RESTful APIs, modern frontend architectures, and leveraging AI tools to accelerate development workflows and code optimization.

EXPERIENCE

CodeAlpha | Full Stack Developer Intern

August 2026 – September 2026

- Developed and maintained responsive full-stack web applications using Next.js, React.js, Node.js, Express.js, and MongoDB.
 - Designed and integrated RESTful APIs with interactive frontend applications, ensuring efficient data flow and state management.
 - Implemented secure authentication and authorization workflows using JWT (JSON Web Tokens).
 - Used Git and GitHub for version control and collaborative development workflows.
 - Integrated AI APIs and leveraged prompt engineering and AI-assisted development tools to improve debugging, refactoring, and development efficiency.
-

PROJECTS

Plantify – Full Stack Plant Management & E-Commerce Platform

Tech Stack: Next.js, React.js, Node.js, Express.js, MongoDB, AI Integration

- Built a full-stack plant management and e-commerce platform combining plant care, shopping, and AI-powered diagnosis features.
- Integrated AI functionality for plant identification, diagnosis, and care recommendations.
- Developed shopping cart functionality, product catalog searching, and checkout API integration.
- Implemented RESTful APIs and MongoDB-based data management for application features.

Gym Management System — Full Stack Platform

Tech Stack: Next.js, React.js, Node.js, Express.js, MongoDB, RESTful APIs, JWT*

- Developed a comprehensive full-stack gym management system to streamline member registration, subscription tracking, and administrative operations.
- Architected secure authentication and authorization flows along with scalable RESTful API endpoints for seamless database interaction.
- Designed an intuitive, responsive frontend dashboard to handle complex data rendering and user workflows.

Cinema Booking App — Full Stack Web Application

Tech Stack: Next.js, React.js, Node.js, Express.js, MongoDB

- Developed a full-stack cinema platform for browsing movies, viewing showtimes, and reserving tickets.
- Integrated RESTful APIs for dynamic movie data and booking operations.
- Implemented user session management and seat reservation data flow.
- Built a responsive interface for a smooth movie browsing and booking experience.

E-Commerce Website — Frontend Project

Tech Stack: Next.js, JavaScript, HTML5, CSS3*

- Created a modern, fast-loading e-commerce frontend focused on smooth user navigation and product catalog browsing.
- Implemented responsive mobile-first UI components ensuring cross-browser compatibility and optimal user experience.

TECHNICAL SKILLS

Frontend: Next.js, React.js, JavaScript (ES6+), HTML5, CSS3, Responsive Web Design

Backend: Node.js, Express.js, REST APIs Architecture & Development

Database & Security: MongoDB, Mongoose, JWT (JSON Web Tokens), Authentication & Authorization

Tools & Platforms: Git, GitHub, Postman, Vercel

AI & Automation: AI APIs Integration, AI-Assisted Development, Prompt Engineering

EDUCATION

Higher Institute for Computers and Information Technology – El Shorouk City

Bachelor's Degree in Business Information Systems (BIS)

Graduation: 2026

Overall Grade: Good
